

# SciVerse ScienceDirect: the best way to target energy professionals

- SciVerse ScienceDirect is Elsevier's full-text scientific online database offering articles from more than 2,500 peer reviewed journals, and more than 11,000 books.
- Elsevier publishes a number of highly acclaimed and influential peer reviewed journals in the energy field. Access to full text articles is limited to subscribing customers in academia, corporate and government organisations. Guest users are able to browse the journals and read the abstracts of articles.
- Elsevier now offers an unprecedented opportunity to target highly qualified and very granular audiences through advertising in the subscriber area as well as in the guest area of SciVerse ScienceDirect.

## High relevancy and specific audience

### Banner advertisements adjacent to peer reviewed content

For the first time, you can place banner advertisements adjacent to peer-reviewed content. This has not been possible in journals delivered either in print or electronically prior to now.

### Measurable and precise lead generation & branding tool

This invaluable tool allows you to target very highly qualified prospects with a measurable and precise lead generation/branding tool. Online campaign statistics are available, allowing you to monitor, analyse and optimise your campaign based on actual results.

### Target your advertising

On SciVerse ScienceDirect you can target your advertising on one specific journal or subject category, so you can reach both **vertically and horizontally** into a specific topic, reaching far more qualified users of our content than you could with a single print journal.

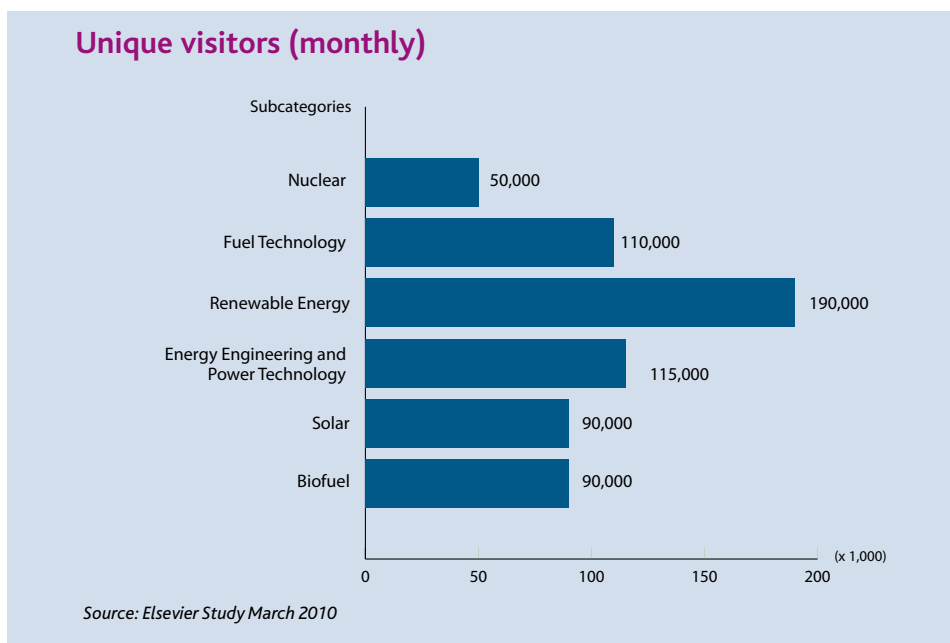

## A selection of titles included in Energy:

Journal of Power Sources  
Bioresource Technology  
Energy Policy  
International Journal of Hydrogen Energy  
Renewable Energy  
Fuel  
International Journal of Heat and Mass Transfer  
Solar Energy Materials and Solar Cells  
Energy Conversion and Management  
Building and Environment  
Energy and Buildings  
Applied Energy  
Biomass and Bioenergy  
Energy  
Journal of Cleaner Production  
Solar Energy  
Applied Thermal Engineering  
Renewable and Sustainable Energy Reviews  
Solid State Ionics  
Electric Power Systems Research  
Nuclear Engineering and Design  
Combustion and Flame  
Fuel Processing Technology  
Environmental Impact Assessment Review  
Journal of Wind Engineering and Industrial Aerodynamics  
Energy Economics  
Journal of Petroleum Science and Engineering  
Resources, Conservation and Recycling  
Environmental Science & Policy  
Fusion Engineering and Design  
International Journal of Electrical Power & Energy Systems  
International Journal of Coal Geology  
Progress in Energy and Combustion Science  
Annals of Nuclear Energy  
Proceedings of the Combustion Institute  
World Patent Information  
Energy Procedia  
Geothermics

Usage statistics: 400,000 unique visitors and 3.2 million page views per month

## Examples of existing banner advertising in www.sciencedirect.com

### Formats

- Leaderboard: 728x90 pixels, ScienceDirect.com and Cell.com
- Skyscraper: 120x600 pixels, ScienceDirect.com and Scirus.com
- Large Rectangle: 336x280, ScienceDirect.com and Cell.com

### Every campaign is offered with dedicated in-house traffic and campaign management

- Use of DART world's leading ad management system from DoubleClick
- Campaign metrics that are available 24/7 and placed in the right context
- Constantly monitor your campaign and act to optimize performance
